Professional Summary

UI/UX and Product Designer with 1+ year of professional experience designing web and mobile products. Currently the **sole UI/UX designer for 12+ digital products**, responsible for approximately **300–500 screens** across web and mobile platforms. Experienced in UX research, user flows, wireframing, high-fidelity UI design, responsive design, prototyping, interaction design, and design systems. Strong in complex workflow design, human-centered thinking, and design-to-development collaboration.

Skills

UI/UX Design: UI Design, UX Design, Product Design, Wireframing, Prototyping, User Flows, Information Architecture, Responsive Design, Interaction Design, UX Research

Figma: Figma, Auto Layout, Components, Variants, Design Systems, Interactive Prototypes

Product Design: Human-Centered Design, User Behavior Analysis, Complex Workflow Design, Visual Hierarchy, Interaction Patterns

Collaboration: Design-to-Development Handoff, Developer Collaboration, Stakeholder Communication

Tools: Figma, Framer

Experience

SRDT Pvt. Ltd. **August 2025 – Present**
UI/UX Designer | India

- Serve as the **sole UI/UX designer for 12+ digital products**, responsible for approximately **300–500 screens** across web and mobile platforms.
- Own the end-to-end design process from **UX research, user flows, and wireframes** to high-fidelity UI, responsive layouts, interactive prototypes, and interaction design.
- Design complex enterprise and university products involving **role-based workflows, dashboards, forms, academic systems, task management, applications, payments, and operational processes**.
- Led the UX/UI design of **MyGuruji LMS**, covering academic workflows, course management, evaluation, feedback, dashboards, forms, and multiple user roles.
- Collaborate directly with developers throughout the product lifecycle, communicating **interaction behavior, responsive states, component structures, and implementation requirements**.
- Build reusable interface patterns using **Figma Components, Variants, Auto Layout, interactive prototypes, and design-system practices**.
- Apply human-centered thinking and UX research to understand **user behavior, information architecture, workflows, and interaction requirements**.

Selected Projects

MyGuruji LMS
Web
University LMS covering academic workflows, course management, evaluation, feedback, dashboards, forms, and role-based UX.

Travel Desk
Web + Mobile
Travel management ecosystem covering travel operations, bus management, and driver workflows across web and mobile.

Facility Management
Web + Mobile
Facility-management product covering service requests, operational workflows, and management interfaces.

SRMU Website
Web
University website redesign focused on navigation, program discovery, content hierarchy, design-system elements, and responsive UI.

Project Management System (PMS)
Web
Project and task-management product covering hierarchy, timelines, delegation, charts, tracking, and productivity workflows.

HRMS
Web + Mobile
Enterprise HRMS product covering dashboards, forms, navigation, workflows, and responsive interfaces.

SRDT Training Website
Web
Training website redesign covering information architecture, landing pages, statistics, industry partners, student outcomes, and responsive UI.

Cardio / Infinymed
Web + Mobile
Product experience covering web and mobile interfaces, user flows, and interaction design.

SP Jain Application
Web + Mobile
Application experience covering forms, validation, declaration, application status, review, and offer-processing states.

Grievance Management
Web
Grievance-management experience covering submission, tracking, status handling, administrative workflows, and forms.

Ramswaroop Experience
Web
Digital university experience covering UX structure, user flows, interface design, and visual experience.

My Payments
Web
Payment product interface and visual exploration for payment-related workflows.

UNIF
Web + Mobile
Product experience across web and mobile, focusing on UX structure, user flows, and interface design.

CRM
Web
CRM product experience covering interface structure, dashboard concepts, and enterprise UI.

Education

Master of Computer Applications (MCA) **2025**
Dr. A.P.J. Abdul Kalam Abdul Kalam Technical University (AKTU), Kanpur, Uttar Pradesh
CGPA: 7.9 / 10
